

PE and Sport Premium Report 2018/19

Report Date	18/12/2018
Coordinator	Nick Kerin, Head of School

Funding in 2018/19

Total allocation	£18,640
-------------------------	---------

2018/19 Funding Arrangements:

Schools with fewer than 16 pupils £1,000 per pupil
 Schools with 17 pupils or more £16,000 plus £10 per pupil

N.B. only year 1 to year 6 pupils qualify for funding (or pupils aged 5 to 10 if your school does not follow year groups)

Spending, Effect And Future Sustainability Of The Grant

How we have spent the funding or will spend the funding:

Membership of the Forest Heath Sports Partnership; CPD for Sports Coach and Sports Assistant; ensuring all children in specific year groups have the opportunity to participate in external competitive sport over the school year.

The effect of the premium on pupils' PE and sport participation and attainment:

In 2017/18 we participated in 20 competitions in the Forest Heath area. We finished in the top three in 14 of them and won 7. We qualified for 7 county finals, finishing 3rd or higher in 3 of them. We also represented Suffolk at the Regional Girls Football competition last year in London.

In 2018/19 so far we have had 7 competitions. Finishing 3rd or higher in 4 of them. We have also qualified for three county finals so far. We have entered the same 20 competitions as last year as well Table Tennis, Dodgeball and Archery. So in total we will be in 24 separate competitions (without county finals).

In terms of taster sessions we welcomed the Olympic Athlete (Tim Prendergast) in for the day last July. We have also collaborated with SESMA, giving our KS2 children the opportunity to learn Martial Arts. We are arranging for the charity Steel Bones to come in and run a Limitless Games day for the children, providing them with opportunity to learn games and activities that are fully inclusive.

We have also had a number of coaches come into school from outside clubs. We have had a number of cricket, rugby, gymnastics and tennis coaches support us to enhance the learning of our children and provide new skills for staff.

On top of this , we have now successfully introduced the Daily Mile to raise our children's general levels of fitness and seen a large increase in the number of children participating in after school clubs over the past year.

How we will make sure these improvements are sustainable:

Retention of Sports Coach through high-quality CPD including possibility of teacher training; CPD development of Sports Assistant over-time; continued participation of class teachers in visiting coaching sessions to 'upskill' staff; continued participation in the Forest Heath Sports Partnership, facilitated by PE Sports Premium funding.
